- A: Explain material in a clearer manner.

- A: It's just a hard class but I really think he gives his all so I don't have anything to suggest.
- A: the exam review sessions and handouts does not reflect what will be on the exams. Communication of the material is not clear and rushed which leaves you alittle confused even after reading the book. He has no real material prepared for lecture and seems to improvise his lectures. THis makes the lectures feel scattered when taking notes
- A: Provide sample exams for all exams to study/understand the style of questions

14 *What were the instructor's strengths?*

- A: He answers questions very well and the review sessions before class are helpful.
- A: Dr. Cooksy is one of the most brilliant professors I have ever met. I say this partially because physical chemistry is so so SO difficult, yet he makes it look so easy. He really cares about his students and it shows with his extended office hours and his review sessions. He is a very kind individual.
- A: covers material well, gives opportunities to make material clearer (office hours, exam study sessions)
- A: He came in prepared everyday and you could tell he was very comfortable with the class material. He was very approachable and willing to help his students.
- A: explanations

15 *In what ways might the instructor improve this course?*

- A: showcase of a few more example problems
- A: This is kind of my fault, but there were a lot of things I did not understand in this course, and I kind of just went with it. i guess if he could go more slowly in lecture because a lot of little things fly over my head.
- A: Provide worksheets
- A: I would really prefer that the lectures be recorded or the notes from lecture placed online. The material is often a lot of information given all at once and can be hard to follow in a 50 minute class. Also the coursekey questions are very difficult. While I like that the questions help prepare us for the exam, I think that you should get points just for answering (attendance).
- A: The one downfall to this class was that I wish the lectures were recorded just in case we miss a class. I know some classrooms come equipped with lecture recording stuff built in so maybe we didn't just because our classroom didn't have that feature.
