14 *What were the instructor's strengths?*

- A: Dr. Cooksy is a marvelous teacher who truly cares about his students. He completely understands that physical chemistry is an extremely difficult class and has supplementary assignments that help students keep a decent grade. You can ask him a question and he will gladly answer it. He never makes you feel stupid. Honestly one of the best professors I have every hand.
- A: helpful office hours
- A: Knows the subject well, responsive
- A: He is very nice and knowledgeable. His office hours help way more than in class lectures just because he has more time to go more in depth. love the pastel exam papers
- A: Organized.
- A: He was always organized, always had an answer for just about anything. One of the best professors I've had.
- A: he is really good at his material
- A: Dr. Cooksy is a great instructor. Physical chemistry is a very difficult class and although it is challenging Dr. Cooksy did everything he could to help. All office hours and lectures held were recorded, allowing students to go over anything they missed or did not understand during class. Always available to ask questions and will respond fast with answers.
- A: Professor Cooksy is amazing at teaching and very knowledgeable.
- A: Dr. Cooksy is an awesome professor who I have a lot of respect for. He is very aware that this class is difficult and even pokes fun at how many exams are integrated within the course. The content itself is super daunting and Dr. Cooksy does an amazing job at trying to keep it simple and cool. Even though my exam grades are bad, I do not believe this is due to Dr. Cooksy's teaching but rather the scope of difficult the content of this class presents. I appreciate Dr. Cooksy teaching us the best that he can on such a difficult topic.
- A: So knowledgeable and really cares about his students

3 student(s) did not respond to this question.

15 *In what ways might the instructor improve this course?*

- A: My only complaint are the exams. I really can't do anything in 20 minutes.
- A: incorporate more examples in class
- A: Less exams

- A: Perhaps have slides we can download/print to follow along with lecture a little better. But it's not necessary, class was great as it was.
- A: the length of the exams
- A: This class is a difficult class and Dr. Cooksy has done a great way to come forward and help make it less difficult. Nothing to change.
- A: Extending the exam time to 25 minutes might help a lot more.
- A: I like the 6 exams because it allows us to focus more on the topics in small portions rather than cramming a lot of info at once. I also appreciate how the grading scale already has the curve so we know where we stand in the class.
- A: Not sure. I simply have no idea what is going on ever because p chem is so hard. i think this course and my sanity might be improved if we just removed p chem forever from the curriculum. just seeing the word hamiltonian activates my fight or flight response.
- A: Sometimes is too smart for me and I can't understand his lectures
- A: Stop with the 20 minute exams.

3 student(s) did not respond to this question.

18 *What is your major?*

- A: Biochemistry
- A: Chemistry emphasis in Biochemistry.
- A: Biochemistry
- A: biochemistry
- A: Biochemistry
- A: Chemistry
- A: chemistry
- A: Chemistry
- A: Biochemistry
- A: Chrmiistry
- A: Chemistry (Biochemistry)
- A: Biochemistry

14 *What were the instructor's strengths?*

- A: Really nice.
- A: He is nice.
- A: smart and understands how hard the subject truly is. generous with grades
- A: Clarity, passion, and knowledge
- A: very organized lectures
- A: The instructor explained everything very clearly and had a book that was easy to comprehend.
- A: He is approachable and always answers questions very well. Physical chemistry is a hard subject but he always clarifies concepts well! He presents the material in an organized matter.
- A: everything
- A: Well organized, explained things in a concise and efficient manner.

5 student(s) did not respond to this question.

15 *In what ways might the instructor improve this course?*

- A: Needs less exams
- A: Make powerpoints of the material and post on canvas before (or after) class. It will help us study more efficiently and it is a more orderly way of storing the material.
- A: N/a
- A: No idea.
- A: I thought the course was good as is.
- A: Show more practice problems during lecture. I feel like we are given material but aren't able to practice together a whole lot.
- A: Interact with the students more, make homework more relevant to exams, possibly have students work in groups to solve problems in class every so often.
- A: nothing hes perfect
