What were the instructor's strengths?

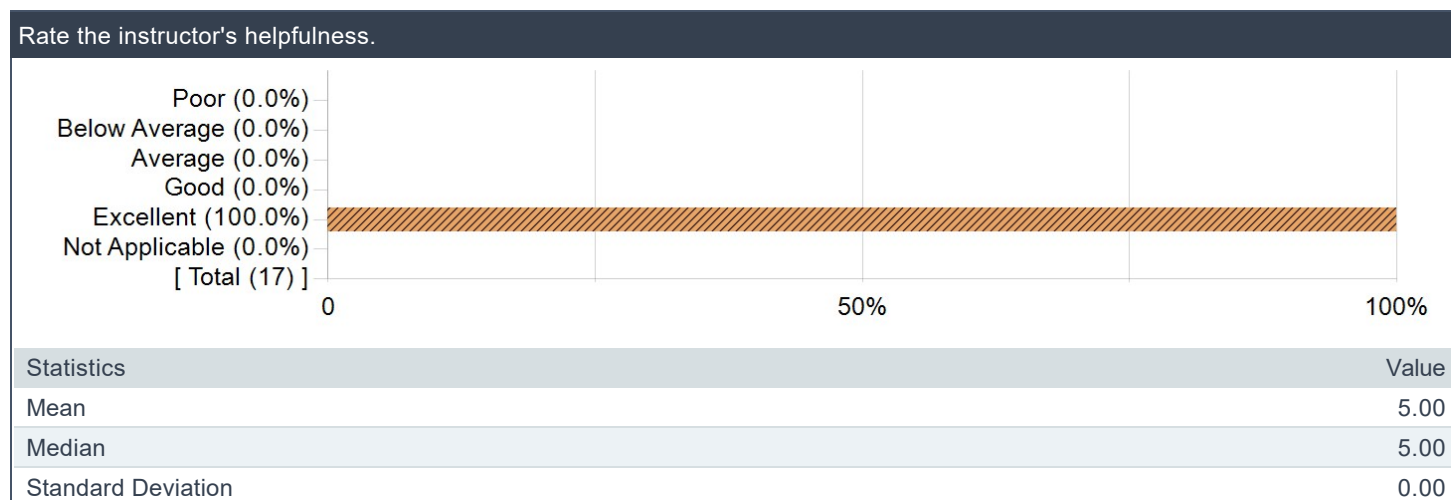

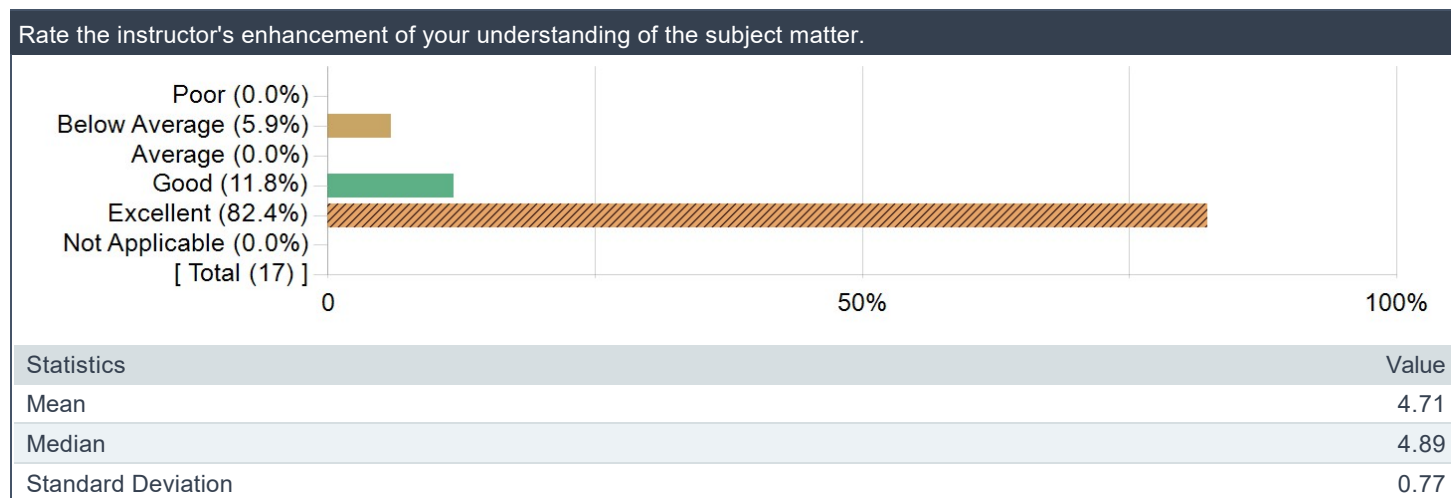

Comments
Clearly passionate about the subject. Super encouraging to every student.
Dr. Cooksy is an excellent professor. One of the best, if not the best professor that I've ever had. It is immediately apparent that he has a mastery of all things PChem. His lectures were great. They covered a lot of tough material, but were never tedious. Dr. Cooksy took time to answer questions in detail, no matter how trivial they might have been. I felt that we went above and beyond the call of duty to make himself available to students. I enjoyed his office hours too. I never want to take PChem again, but if I had to, I would hope that Dr. Cooksy would be teaching that class.
Cooksy is a king !!! he is very nice and caring to all his students and hes a real funny man
provided ample opportunities for students to get the best grade possible and was always happy to help students out
Dr. Cooksy is a genius. He is focused on the students understanding of the concepts, and is very approachable. It was an honor to have him as an instructor and mentor in my academic journey.
Dr. Cooksy was very knowledgeable on the topics that he teaches. Dr. Cooksy is super quick in replying and is a very understanding professor. We need other professors to learn a little bit from him because he is awesome <3
Dr. Cooksy is an amazing professor who genuinely cares about his students. He is very patient and will explain topics to students multiple times. I am very grateful that I took both semesters of physical chemistry with him. If I hadn't, I probably would have failed the course. Thank you Dr. Cooksy!
very helpful and available to students! wants all of his students to succeed!
so kind and caring — does great job of making difficult material understandable
Very responsive to emails, always patient with students. The structure of the class is very organized and the learning objectives are made clear.
making himself accessible and helpful for every students success
Extremely knowledgeable, is more than happy to aid students in understanding if you are confused, has plenty of office hours (he is very accessible outside of the classroom), organizes material well so students are not confused or lost
Communicates very well
Dr. Cooksy is so understanding and caring to his students. He makes students' concerns and well being a priority which is very highly appreciated. He is also super accommodating as far as having to make-up exams and quizzes
Dr. Cooksy is one of the kindest professors I have ever had. PChem is an extremely hard class but Dr. Cooksy made it very bearable and his enthusiasm to teach made the class enjoyable.
He's a very caring professor and very supportive. Always hoping for the best!

In what ways might the instructor improve this course?

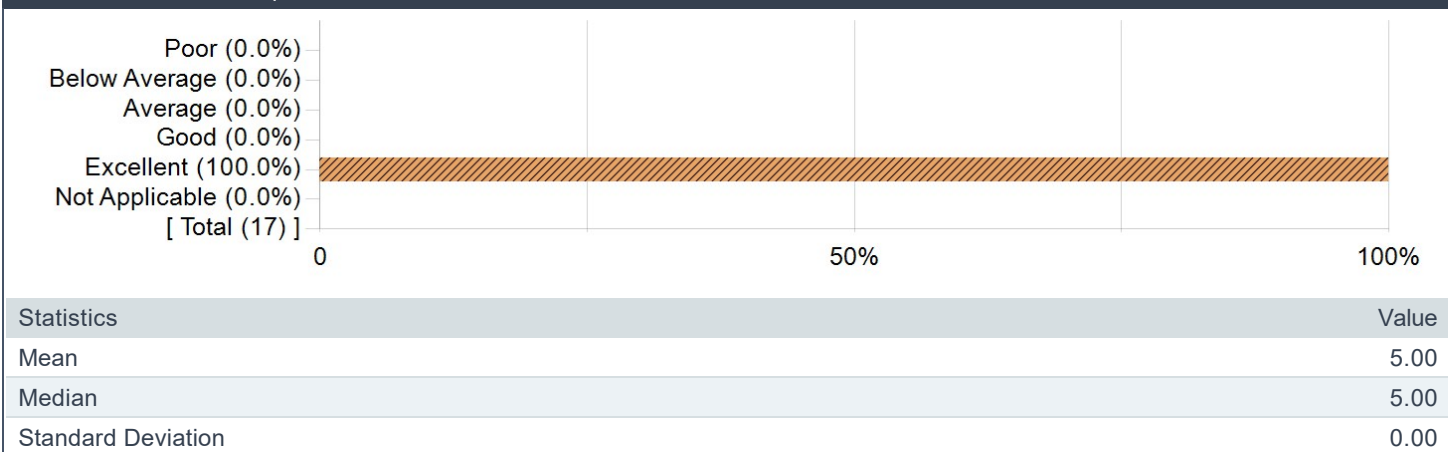

Comments
Course is pretty much perfect as is.
Honestly, I have no suggestions. He is a really great professor. No changes needed.
i dont know man, physical chem is hard. i have no idea what happened this whole semester i truly have no idea what was going on
a little more time for exams would be nice
This was a difficult course for me. I do not have a recommendation.
No, it is good.
More extra credit.
none
na
No improvements needed.
Possibly finding a different way to write during class instead of on a white board — sometimes it can be hard to write down everything before it gets erased
Can't think of anything
N/A
I think having an exam every 2 weeks was a little too overwhelming, especially when taking other classes. 5 would even be better.
maybe extend the exam time, or make exams shorter

SDSU is committed to the values of equity, diversity, and inclusion. Please describe whether the instructor created an inclusive learning environment where diverse students, particularly those from marginalized communities, were supported and welcomed?

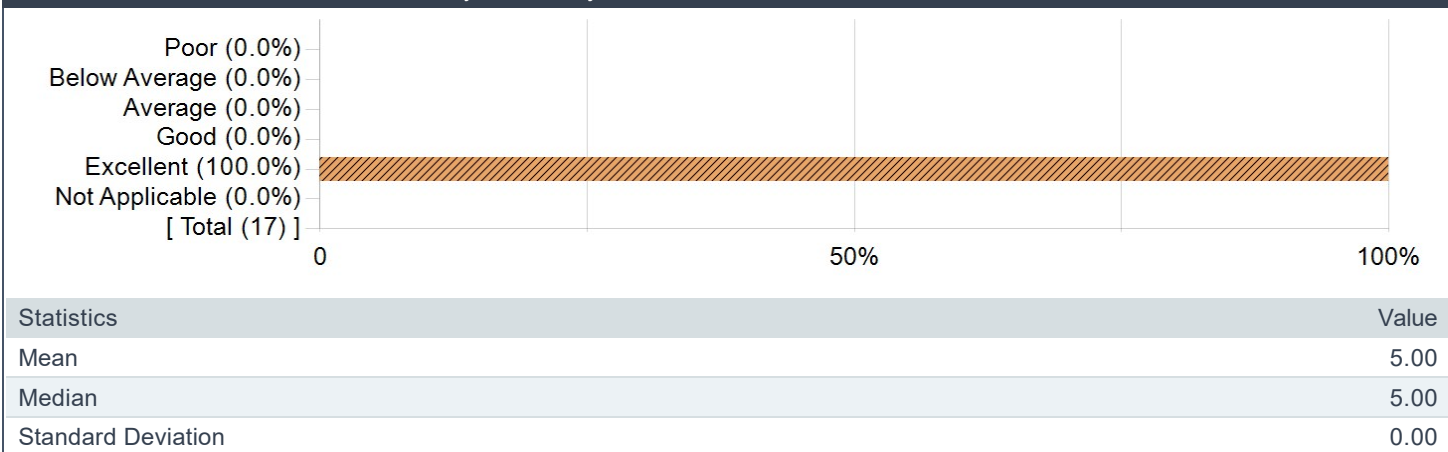

Comments
Cooksy treated everyone equally and with kindness.
Dr. Cooksy listened to everyone's questions intently . I felt that I could talk to him and ask him questions without reservation.
yeah he is awesome to everyone
Yes, an inclusive environment was established.
Yes, he respects us.
Yes. He makes an effort to learn every student's name.
yes, very inclusive environment
yes
Dr. Cooksy is always respectful toward students. The Biosketch assignment really enforces inclusiveness in STEM.
yes
Yes
Yes
He's very supportive and welcoming

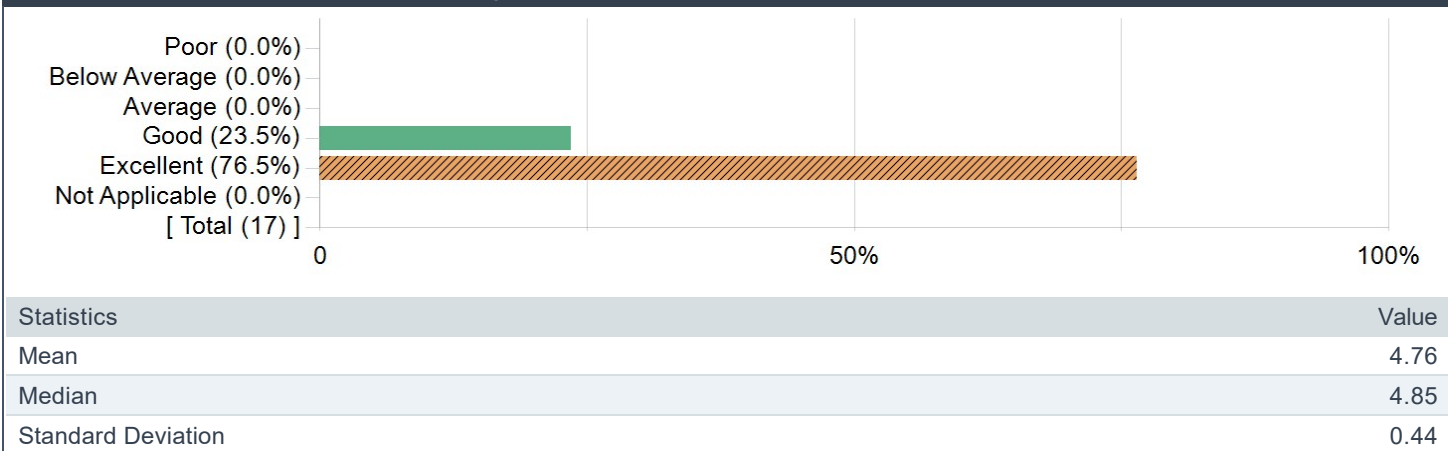

Rate the instructor's responsiveness.
